

25 YEARS IN BUSINESS

April 18, 2018 is a very important date for Jerry Johnson. Jerry is the owner/operator of Johnson's Transmission & Auto Service Inc. Jerry started the business with a single bay shop and after many years, he expanded this operation into a 10 bay garage, plus a paint and body shop. As of now, he has 11 full time employees and 3 part time employees. He also just added a new office with a very comfortable waiting area. Jerry recently received his Master Certification in Business Management, through Management Success. This took many hours after working all day into the evening to get this accomplished. So on April 18, 2018, we will be telling Jerry Johnson, Congratulations on successfully owning and operating a business for 25 years, his Silver Anniversary. Jerry knows he is where he is at, through hard work, determination, and last but definitely not least, his faith and trust in God.

If you will please come in and enjoy this special time with Jerry and his staff for light refreshments and a drawing for a 100.00 VISA gift card. The drawing for the card will take place 4/18/2018 until 5/9/2018.

There will be a nice door prize for the first 100 customers to come in and sign up for the drawing.
